FO Termination Kit

Components

1. Sapphire cleaver ceramic
2. (3 Way) Fiber stripper
3. 0.3-liter sharp box
4. Led head torch
5. Anaerobic adhesive 50 ml
6. Anaerobic adhesive 150 ml
7. 10 x syringes-screw type
8. 10 x needle tips
9. Soft polishing pad
10. 2.5mm universal SC and ST polishing disk
11. 1.25mm LC polishing disk
12. 5 x 12-micron polishing paper – yellow
13. 5 x 1 micron polishing paper - light green
14. 5 x 0.3-micron polishing paper
15. Microscope
16. LC adapter for microscope
17. Kevlar scissors
18. Carry case

Sapphire Cleaver Ceramic

Webb fibre optic scribe/ cleaver is a high quality ruby blade for scoring fibre conductors prior to breaking and polishing. Its non-slip grip provides precise control during scribing and its modular design makes it simple to use.

3-Way Fibre Stripper

Webb fibre optic stripper is designed to easily strip 1.6mm to 3mm jackets, down to the 600micron and 900micron buffer coating of fibre optic cables. It also consists of specific indents to access 125-micron bare fibre from cables. It can strip wires without scratching or otherwise damaging the cores within the fibre cable.

**Specifications are subject to change without notice based on technical recommendations and related product enhancements*

Hand Polishing Discs

Webb hand polishing discs enable you to achieve quality end face finishes and consistent results while polishing fibre optic connectors. When polishing delicate fibres, the polishing discs enable the operator to achieve precise terminations without damaging the fibre.

Included with:

- ST/ SC/ FC universal 2.5mm polish disc
- MU/LC universal 1.25mm polish disc

Kevlar Cutting Scissors

Webb kevlar cutting scissors are lightweight and designed to cut through the tough yarn found within fibre optic cables. The blades are made of high carbon alloy steel with vanadium and molybdenum which provides the cutting edge with extra durability. The handles are made of thermoplastic elastomers (TPE) for effective handling.

Size (LxW): 140mm x 70mm

Polishing Sheet

Webb polishing sheets are consistent and uniform, providing repeatable connector finishes on ceramic, stainless steel, plastic and composite fibre ferrules.

Available sizes: 3"x 6" and 4.5"x 5.5"

Material: aluminium oxide and silicon carbide

Available grits (microns): 0.3 - white, 1 - light blue, 3 - pink, 5 - light grey, 9 - blue, 12 - yellow, and 15 - dark grey

Screw-Type Syringe

Webb syringes are used for injecting connectors with epoxy to secure fibre terminations. It consists of a 0.9mm needle and comes in sets of 5/pack.
